Re: Bob Nelson – Accurate Controls, Inc.

I would like to recognize Bob Nelson for his involvement in the Security Electronics installation at the Fairfield County Sheriff's Office. Bob was instrumental in getting the project on track and quick to resolve barriers during the construction process. Bob's involvement did not stop once the project was completed, he continued to stay in contact with my organization to resolve issues we encountered once the facility was occupied and monitored the process until it was resolved.

I would recommend that Bob Nelson be recognized for his Leadership, Initiative and Cooperation.
